

Annex no. 8

Full list of indicators

Each project should define a set of indicators in order to measure the achievement of planned project's effects. There are output indicators and result indicator to be defined for each project – all of them are presented in the table below. By choosing the priority the lead beneficiary is defining at the same time the result indicator to which its project shall contribute. Activities planned in the project should in a logical way lead to the achievement of this result indicator – this aspect will be evaluated during the administrative and eligibility check of both Concept Note and Full Application Form. Target values of indicators should be set out in accordance with the indicators metrics (annex to this Manual Part I).

Important!

- beneficiaries **must** choose output indicators for their project **only** from this list (no other indicator can be included in the project)
- in order for the project to be eligible it **must truly** contribute to at least one of the output indicators from this list
- in order to receive maximum number of points in the section 3 a) of the checklist for quality assessment of Concept Note and Full Application Form, the project must include one of the Programme output indicators (as specified in the Joint Operational Programme point 3.1.6 and below)
