Furthermore, the document includes the requirements formulated in the following legal acts:

- Regulation (EU) No 236/2014 of the European Parliament and of the Council of 11 March 2014 laying down common rules and procedures for the implementation of the Union's instruments for financing external action.

Furthermore the document is integral with the relevant requirements set in the Programme Manual (part 1) and in the Grant Contract signed with each Lead Beneficiary.

§ 1 SUBJECT OF THE RULES

§ 2 MAIN PRINCIPLES

1. All Beneficiaries, being the subject of the *General Rules*, shall follow the following principles:
 - a) the contract is awarded to the tender offering best value for money or offering the lowest price, while avoiding any conflict of interests;
 - b) for contracts with a value of EUR 20 000 or more, the following rules shall apply in addition:
 - an Evaluation Committee (hereinafter – the Committee) shall be set up to evaluate applications and/or tenders on the basis of the exclusion, selection and award criteria presented by the Beneficiary in advance in the tender documents. The Committee must have an odd number of members (at least three) with all the technical and administrative capacities necessary to give an informed opinion on the tenders/applications. Decisions of the Committee shall be recorded in the Minutes. The Minutes shall specify reasons and provide explanations of the Committee’s decision. The Minutes shall be signed by all the members present at the Committee’s meeting. The Minutes shall be available to all bidders, who took part in the procedure.
 - sufficient transparency, fair competition and adequate ex-ante publicity must be ensured;
 - equal treatment, proportionality and non-discrimination shall be ensured. Beneficiaries shall treat suppliers equally, without discrimination and shall act in a transparent and proportionate manner within the whole period of the implementation of procurement procedure;
 - tender documents must be drafted according to the best international practice;
 - deadlines for submitting applications or tenders must be long enough to give interested parties a reasonable period to prepare their tenders;
 - candidates or tenderers shall be excluded from participating in a procurement procedure if they fall within one of the situations described in § 4. Candidates or tenderers must certify that they are not in one of these situations. In addition, contracts may not be awarded to candidates or tenderers which during the procurement procedure fall within one of the situations referred to in § 5;
 - procurement procedures set out in Articles 53 to 56 of the Regulation (EU, Euratom) No 897/2014 shall be followed (see § 10).
2. Beneficiaries shall avoid conflict of interest (see p. 6.4.6 of the Programme Manual – part 1) arising in the conduct of the procurement procedures. Prior to start the procurement, each Committee members/the employee assigned to carry the procurement of the Beneficiary’s organisation shall sign separate Declaration of impartiality and confidentiality in accordance with Annex II to *General Rules*. Signed declarations shall be kept as part of the procurement documentation.

3. The concept of conflict of interest covers any situation where the staff members of the Beneficiary or of a procurement service provider, acting on behalf of the Beneficiary, who are involved in the conduct of the procurement procedure or may influence the outcome of that procedure have, directly or indirectly, a financial, economic or other personal interest which might be perceived to compromise their impartiality and independence in the context of the procurement procedure.

In the event of conflict of interest, the Beneficiaries shall immediately take all necessary steps to resolve it. The Beneficiaries shall ensure that their staff, participating in procurement procedures, is not placed in a situation which could give rise to conflict of interests. Without prejudice to its obligation under grant contract, the Beneficiaries shall replace, immediately and without compensation from the Managing Authority of the Programme (hereinafter – MA), any member of its staff, participating in procurement procedures, in such a situation.

4. Supplier (supplier/service provider/contractor) which can submit a tender shall mean any economic entity that may be either a natural person, or a private legal person, or a public legal person, other organisation and division thereof or any group of such persons (including consortia), which is able to offer or is offering supplies, services or works.
5. When the contract value is less than EUR 20 000 evaluation of applications and/or tenders may be performed by the employee assigned to carry the procurement of the Beneficiary's organisation. Grounds of the selection of the winner in this case have to be indicated in the procurement note drafted in accordance with Annex I to *General Rules*.
6. When communicating with the suppliers, Beneficiaries must ensure integrity of information and confidentiality of tenders. If Beneficiaries are clarifying procurement documentation, the same information must be communicated for all (potential) suppliers via appropriate channels.

§ 3 RULES ON NATIONALITY AND ORIGIN

1. The rule of nationality, that is, the eligibility conditions for the participation of economic operators in procurement procedures, is the same as the one applied in the Member States. Therefore, there is no restriction on nationality of tenderers.
2. The Common Implementing Rules (EC Regulation 236/2014) make reference to the threshold of the competitive negotiated procedure, which corresponds to EUR 100 000. When the value of the supplies to be purchased is below EUR 100 000 per purchase, the supplies do not have to originate from an eligible country (full untying).
3. In case of actions implemented under shared management with a Member State (as it is the case of the Programme), countries that are eligible under the rules of that Member State are also eligible. Since no restrictions regarding origin are foreseen by the Polish national rules, there is no restriction on the origin of supplies above EUR 100 000 per purchase¹.

¹ In case any restrictions regarding origin are imposed in the Member State, they shall be followed both in the Member State and in the Programme countries as well.

3. 3. Technical specification of the procurement object must ensure fair competition and be a non-discriminatory with respect to all suppliers. Requirements in the technical documentation may not refer to a specific model or source, or a particular process, or to trade mark, patent, type or production with the effect of favouring or eliminating certain undertakings or certain products from participation in procurement procedure.
4. The contract must specify: rights and obligations of the parties; the purchased supplies, services or works and their exact quantities (where applicable); the price or pricing rules; settlement and payment procedures; deadlines for discharging obligations; security for discharging obligations; the procedure for settling disputes; the procedure for terminating the contract; the contract period; possibility of changes of the contract and its procedure.

- b) Beneficiaries may request the tenderers to clarify their tenders but they cannot ask, offer or let to change the substance of the tender: to change the price or to make other changes that would modify the tender from non-corresponding to the requirements of procurement documents to corresponding to the requirements of procurement documents. If there are arithmetical mistakes in a tender, Beneficiaries must ask to correct it.
- c) If the tender does not meet any of the requirement of tender evaluation criteria, it must be rejected.

Scores must be given to the tenders. Clear and transparent methodology of scoring must be indicated in the procurement documentation. The contract is awarded to a supplier whose tender has received the highest score.

- c) If the contract award criteria indicated in the procurement documentation is the smallest price – then the contract is awarded to the tenderer which offers the smallest price.
- d) No preferential discounts for suppliers or goods of certain nationality/origin are allowed when evaluating tenders.
- e) Despite the chosen contract award criteria: most economically advantageous or the smallest price, tenders must be evaluated in accordance with the points 1 and 2 of the paragraph, i.e. the contract must be awarded to a supplier which meets the qualification and tender evaluation criteria indicated in the procurement documentation.

§ 8 REQUIREMENTS FOR CONCLUSION AND IMPLEMENTATION OF THE CONTRACT. CONTRACT MODIFICATION

1. Procedures to award contracts may be initiated and contracts may be concluded by the Beneficiaries before the start of the implementation period of the project, provided the provisions of p. 6.2.1 (iv) of Programme Manual - part I and this General Rules have been respected.
2. When awarding the contract, the price set in the successful tender/ the final negotiations price recorded in the negotiations minutes or the final tender submitted after the negotiations as well as the contract terms and conditions specified in the procurement documents and in the tender may not be altered³, unless the procedures stipulated in § 8 point 4 and/or § 16 points 2–4 are followed.
3. No modifications to the contracts may be made without a new procurement procedure, unless the procedures stipulated in § 8 point 4 are followed. Additional services/works/supplies, occurred to be necessary during the project implementation, may be conducted basing on the procedures foreseen by the § 16.
4. In **exceptional and duly justified cases** the scope of the initially signed contract may be modified. Such modifications must be formalised through an addendum to the initial contract. The contract modification should respect **all** of the following conditions:
 - a) the value of the modification is limited to 10 % of the initial contract value for service, and supply contracts, and 15 % of the initial contract value for works contracts;

³ During the contract execution the price may be altered, when it is required by the national legislation (e.g. indexation of the price of construction contract in Belarus). Then the amount of the expenditure shall be limited by the limits foreseen in the budget for the project.

- b) the net cumulative value of several successive modifications does not exceed the thresholds indicated above;
- c) the modification does not constitute a fundamental alteration of the Terms of Reference/Technical Specifications;
- d) the modification is closely connected with the nature of the initial contract;
- e) the modification does not constitute a breach of the equal treatment principle (other tenderers who might have had better offers if the new conditions would be known in advance).

§ 9 IRREGULARITIES IN PROCUREMENT PROCEDURES

1. In case of breaching the regulations or principles on the award of contracts, the relevant expenditure related to the contract shall be deemed, in whole or in part, ineligible (applies to all Beneficiaries).
2. § 10 VALUE AND PROCEDURES OF THE SERVICES, SUPPLIES AND WORKS PROCUREMENT

1 table. Thresholds and types of procurement⁴:

Threshold	2 500 €		20 000 €		100 000 €		300 000 €		5 000 000 €	
SERVICES	Direct award	Single tender	Competitive negotiated procedure without publication				International restricted tender procedure			
SUPPLIES			Competitive negotiated procedure without publication	Open tender procedure published in the Programme area		International open tender procedure				
WORKS			Competitive negotiated procedure without publication				Open tender procedure published in the Programme		International open or restricted tender procedure	

⁴ More strict procedure can be applied in all cases despite the threshold, e.g., competitive negotiated procedure without publication instead of single tender for the contract with a value of EUR 6.000

				area	
--	--	--	--	------	--

1. No other types of procedures, e.g., electronic auction, except those, indicated in the table above can be used for the procurement.
2. In the case if the procurement is organised in the national currency other than euro, InforEuro (<http://ec.europa.eu/budget/inforeuro/>) exchange rate of the month of the launch of the tender should be used in order to choose the relevant procurement procedure.
3. It is not allowed to split the procurements into separate procurement procedures artificially in order to avoid the binding thresholds. Similar types of supplies, services and works should be joined and tendered under one procedure.

Value of the procurement should be counted without value added tax.

4. In duly justified cases the splitting will not be regarded artificial due to the timing reason. That means that when services/supplies/works are required at different stages of the project the contract could be split. In such situation the threshold for each the procurement may be calculated separately.
5. The procurement could be split by lots, allowing different companies bidding and winning in different lots. In this case the total value of such procurement is counted as the sum of all lots⁵.
6. Procurement procedures for service contracts:
 - a) Service contracts are concluded with a service provider.
 - b) Service contracts with a value of EUR 300 000 or more shall be awarded by means of an international restricted tender procedure following publication of a procurement notice. The procurement notice shall be published in all appropriate media beyond the Programme area, stating the number of candidates which will be invited to submit tenders within a range of four to eight candidates and ensuring genuine competition.
 - c) Service contracts with a value of EUR 20 000 or more but less than EUR 300 000 shall be awarded by means of a competitive negotiated procedure without publication. The Beneficiary shall consult at least three service providers of its choice and negotiate the terms of the contract with one or more of them.
 - d) For services of a value of less than EUR 20 000 the Beneficiary may place orders on the basis of a single tender.

7. Procurement procedures for supply contracts

- a) Supply contracts are concluded with a supplier and cover the purchase, rental or hire purchase, with or without the option to buy goods (equipment, material, etc.). A public supply contract may include, as an incidental matter, siting and installation operations.
- b) Supply contracts with a value of EUR 300 000 or more shall be awarded by means of an international open tender procedure following publication of a procurement notice, which shall be published in all appropriate media beyond the Programme area.
- c) Supply contracts with a value of EUR 100 000 or more, but less than EUR 300 000

⁵ Note: If procurement has become unsuccessful for some lot(s), a new procurement procedure(s) should be organized for it (them). Meanwhile contract(s) should be signed for the successful lot(s). At the same time the threshold shall be calculated basing on the initial procurement (i.e. including the value of successful lots).

shall be awarded by means of an open tender procedure published in the Programme area. Any eligible tenderer must be provided with the same opportunities as local firms.

- d) Supply contracts with a value of EUR 20 000 or more but less than EUR 100 000 shall be awarded by means of a competitive negotiated procedure without publication. The Beneficiary shall consult at least three suppliers of its choice and negotiate the terms of the contract with one or more of them.
- e) For supplies of a value of less than EUR 20 000 the Beneficiary may place orders on the basis of a single tender.

8. Procurement procedures for works contracts

- a) Works contracts are concluded with a construction or engineering company (contractor). A “work” is the outcome of building or civil engineering works taken as a whole that is sufficient of itself to fulfil an economic or technical function.
- b) Works contracts with a value of EUR 5 000 000 or more shall be awarded by means of an international open tender procedure, or in view of the specific characteristics of certain works by means of a restricted tender procedure, following publication of a procurement notice which shall be published in all appropriate media beyond the Programme area.
- c) Work contracts with a value of EUR 300 000 or more but less than EUR 5 000 000 shall be awarded by means of an open tender procedure published in the Programme area. Any eligible tenderer must be provided with the same opportunities as local firms.
- f) Work contracts with a value of EUR 20 000 or more but less than EUR 300 000 shall be awarded by means of a competitive negotiated procedure without publication. The beneficiary shall consult at least three contractors of its choice and shall negotiate the terms of the contract with one or more of them.
- g) For works of a value of less than EUR 20 000 the Beneficiary may place orders on the basis of a single tender.

§ 11 INTERNATIONAL RESTRICTED TENDER

1. The procurement notice shall be published in all appropriate media of the Programme participating countries (see § 18).
2. All interested economic operators may submit a request to participate in response to a call for competition. But only candidates satisfying the selection criteria and invited in writing by the Beneficiary may submit a tender.
3. The minimum time limit for receipt of requests to participate shall be 30 calendar days from the date on which the contract notice or, where a prior information notice is used as a means of calling for competition, the invitation to confirm interest was sent. Beneficiaries state the number of suitable candidates to be invited to participate in the procedure within a range of four to eight. However, where the number of candidates meeting the selection criteria is below the minimum number, Beneficiaries may continue⁶ the procedure by

⁶ The continuation of a procedure is not obligatory.

inviting the candidates with the required capabilities. In the context of the same procedure, Beneficiaries shall not include economic operators that did not request to participate, or candidates that do not have the required capabilities. The minimum time limit for the receipt of tenders shall be 30 calendar days from the date on which the invitation to tender was sent.

4. Where a state of urgency⁷ duly substantiated by the Beneficiary renders impracticable the time limits laid down in p. 3, they may fix:
 - a) a time limit for the receipt of requests to participate which shall not be less than 15 calendar days from the date on which the contract notice was sent;
 - b) a time limit for the receipt of tenders which shall not be less than 15 calendar days from the date on which the invitation to tender was sent.

§ 12 INTERNATIONAL OPEN TENDER

1. The procurement notice shall be published in all appropriate media beyond the area of the Programme participating countries (see § 18).
2. In open procedures, any interested economic operator may submit a tender in response to a call for competition.
3. The minimum time limit for the receipt of tenders shall be 30 calendar days from the date on which the contract notice was sent.
4. Where a state of urgency, duly substantiated by the Beneficiary, renders impracticable the time limit laid down in p. 3, the limit may be shortened to 15 calendar days from the date on which the contract notice was sent.

§ 13 OPEN TENDER PROCEDURE PUBLISHED IN THE PROGRAMME AREA

1. In open procedures, any interested economic operator may submit a tender in response to a call for competition.
2. The minimum time limit for the receipt of tenders shall be at least 15 calendar days from the date on which the contract notice was sent.
3. Where a state of urgency, duly substantiated by the Beneficiary, renders impracticable the time limit laid down in p. 2, the limit may be shortened to 7 calendar days from the date on which the contract notice was sent.
4. The procurement notice is to be published in all appropriate media but it is sufficient to publish it only in the Programme area of the country in which the project is implemented – at least in the Programme area of the country of the Beneficiary which is performing procurement procedure⁸.

⁷ Late start of procurement procedures cannot be considered as a state of urgency.

⁸ The example of media for tender publication in Belarus is Internet Centre for Electronic Trade (www.icetrade.by). The examples of media for tender publication in Ukraine are Internet tender platforms, available for private organizations.

§ 14 COMPETITIVE NEGOTIATED PROCEDURE WITHOUT PUBLICATION

1. The Beneficiary consults at least 3 candidates of its choice and negotiates the terms of the contract with one or more of them.
2. Main conditions of the contract should be indicated in the written invitation sent to the potential candidates.

§ 15 SINGLE TENDER

1. The Beneficiary consults 3 candidates or more of its choice and choose the best offer for the contract signature.
2. The requests for the offer and responds of candidates shall be made in written.
3. The Beneficiary must conclude the written contract and fill in the procurement note in accordance with Annex I of *General Rules*.
4. The Beneficiary may decide to use negotiated procedure on the basis of a single tender in the cases referred to in § 16.

§ 16 USE OF THE NEGOTIATED PROCEDURE WITH A SINGLE TENDER, PROCUREMENT OF ADDITIONAL SERVICES/WORKS/SUPPLIES

1. The contracts may be awarded by negotiated procedure with a single tender consulting one offer in the following cases:
 - a) where, for reasons of extreme urgency⁹ brought about by events which the Beneficiaries could not have foreseen and which can in no way be attributed to them, the time limit for the procedures referred to in §§ 11-13 cannot be kept;
 - b) where the tender procedure has been unsuccessful twice, that is to say, where no qualitatively and/or financially worthwhile tender has been received, in which case, after cancelling the tender procedure, the Beneficiary may negotiate with one or more tenderers of its choice, from among those that took part in the invitation to tender, provided that the original terms of the contract are not substantially altered;
 - c) (*applicable to service contracts*) where the services are entrusted to public-sector bodies or to non-profit institutions or associations and relate to activities of an institutional nature or designed to provide assistance to people in the social field¹⁰;

⁹ Operations carried out in crisis situations shall be considered to satisfy the test of extreme urgency. Crisis situations shall be understood as situations of immediate or imminent danger threatening to escalate into armed conflict or to destabilise the country as well as situations caused by natural disasters, manmade crisis such as wars and other conflicts or extraordinary circumstances having comparable effects related inter alia to climate change, environmental degradation, privation of access to energy and natural resources or extreme poverty. The authorising officer by European Union delegation, where appropriate in cooperation with the other authorising officers by delegation concerned, shall establish that a situation of extreme urgency exists and shall review his decision regularly with regard to the principle of sound financial management.

¹⁰ Services directly linked to the statutory mission of the public sector bodies.

 - f) (*applicable to supply contracts*) where warranted by the nature or particular characteristics of the supplies, for example, where performance of the contract is exclusively reserved for the holders of patents or licences to use patents;
 - g) (*applicable to supply contracts*) for contracts in respect of supplies quoted and purchases on a commodity market;
 - h) (*applicable to supply contracts*) for contracts in respect of purchases on particularly advantageous terms, either from a supplier which is definitively winding up its business activities, or from the receivers or liquidators of a bankruptcy, an arrangement with creditors, or a similar procedure under national law;
 - i) for contracts declared to be secret, or for contracts which performance must be accompanied by special security measures or when the protection of the essential interests of the Union or the Beneficiary country so requires;
 - j) where a new contract has to be concluded after early termination of an existing contract;
 - k) additional services/works/supplies – in line with requirements of points 2-4.
2. The contractor for the already started services may be awarded the contract for additional services, if:
- a) additional services not covered by the principal contract but which, as a result of unforeseen circumstances, have become necessary for the performance of the contract, provided that the additional service cannot be technically and economically separated from the principal contract without serious inconvenience for the contracting authority and the aggregate amount of additional services does not exceed 50 % of the value of the principal contract;
 - b) additional services consisting in the repetition of similar services entrusted to the contractor providing services under a first contract, provided that:

 - the extension of the contract is for a value and duration not exceeding the value and the duration of the initial contract.
3. The contracts may be awarded for additional deliveries by the original supplier intended as the extension of existing supplies or installations, where a change of supplier would oblige the Beneficiary to acquire equipment having different technical characteristics which would result in either incompatibility or disproportionate technical difficulties in operation and maintenance;
4. The additional works may be awarded to the work contractor already carrying out the work for additional works not included in the initial contract concluded but which have, through

unforeseen circumstances, become necessary for carrying out the work described therein and the aggregate value of contracts awarded for additional works does not exceed 50 % of the value of the principal contract:

- a) where such works cannot be technically or economically separated from the main contract without serious inconvenience for the contracting authority;
- b) where such works, although separable from the performance of the original contract, are strictly necessary for its completion.

§ 17 DIRECT AWARD
